Introduce your **VISION**
to a whole new world of
magnifying options.

Are you visually impaired or legally blind due to **MACULAR DEGENERATION** or other eye-related challenges? If so, you may require a much higher level of magnification & contrast to achieve visual independence—to read, write, watch TV, or even recognize faces. If you or a loved one would like a copy of our **FREE** product catalog or to schedule a **FREE** home-magnifier assessment, please call or email us today. We specialize in the latest & most effective magnifying devices for all your low-vision needs, and we offer hundreds of life-changing products!

TheMagnificationCompany.com

About Us

Meet Bob Schrepfer, resident native of St. Petersburg, Florida. Bob has dedicated over 28 years to helping those with low vision regain their independence with high-powered magnifying devices. The Magnification Company works hand in hand with eye care professionals, state agencies for the blind, VA hospitals and vision teachers within our school systems to provide one-on-one demonstrations and evaluations in the convenience of your home, school, workplace or doctor's office.

Envision a **bigger, brighter** world with
The Magnification Company!
