

LOW VISION SEMINAR

Host a Low Vision Product Seminar For Your Low Vision Residents

Presentation Title

NEW 2016 Magnifying Devices & Services for the
Visually Impaired & Legally Blind

Duration

30-45 minutes, with hands-on demonstrations immediately afterwards

Overview

The Magnification Company (*formerly Magnifying Solutions*), has been a leading low vision product provider for the state of Florida since 1997. Our mission is to provide the latest and most effective magnifying devices and low vision services available to help our customers achieve, and maintain, their visual independence.

Bob Schrepfer, owner of The Magnification Company has been dedicated to increasing the awareness of low vision technology to senior homes and retirement communities for more than 28 years. His entertaining and informative session highlights the various new magnifying devices, including the latest in magnifying products, text-to-speech, lighting systems and new services currently available for the visually impaired throughout Florida.

Join Bob for a discussion and demonstration covering how these new low vision devices and services may impact your visual independence. He's ready to answer all your questions and address your concerns today.

Call 866-343-3395 to schedule your seminar today!

NOTE: This lecture is for informational purpose only for your residents. Products will not be sold or solicited during this presentation unless otherwise granted by management.
